Theater Visions is buzzing with creativity this fall! Our creative and fun **workshops for children, teens, and adults** begin in just over a week, offering a vibrant mix of acting, movement, and storytelling designed to inspire performers of all levels. Whether you're just starting out or looking to hone your skills, these sessions are a wonderful way to build confidence, collaborate, and improve your spoken English while developing acting and public speaking skills.

We're excited to announce a new program - **Mommy & Me Storytime**. This program will be co-led by Petya Lozanova (Parenting Consultant) and Marlee Kirilova (Dance & Movement Instructor). This bilingual (BG & ENG) session is intended for parents & their children ages 10-24 months.

Meanwhile, our company is already deep into rehearsals for our eerie, semi-immersive fall performance **The Edgar Allan Poe Soiree**, which is set to open just in time for Halloween—a creepy treat for adults looking for a night out.

And introducing a brand-new offering: **Acting in General American**, a specialized course for professional and amateur actors who want to refine their American dialect for stage and screen. This is an ideal opportunity for anyone seeking to expand their versatility and bring authenticity to their performances.
